| September 18, 2014 (Penn SRP*) 10---100 SCTR | Edward Emmett, MD, MS  
Professor, Occupational & Environmental Medicine  
Frances Barg, PhD  
Associate Professor (PSOM) & Department of Anthropology  
**Title: The Meaning of a Superfund Site to the Community** |
| October 2, 2014 10---100 SCTR | Lisa Peterson, PhD  
Professor, Division of Environmental Health Sciences and the Masonic Cancer Center University of Minnesota  
**Title: Context Matters: Contribution of Specific Adducts to the Genotoxic Properties of Nitrosamines** |
| October 16, 2014 (Penn SRP*) 10---100 SCTR | David Williams, PhD  
Department of Environmental & Molecular Toxicology  
Director, Superfund Research Program, Oregon State University  
**Title: Transplacental Carcinogenicity of Polycyclic Aromatic Hydrocarbons in a Mouse Model** |
| November 6, 2014 10---100 SCTR | Pete Dedon, MD PhD  
Underwood Prescott Professor of Biological Engineering and Toxicology  
Singapore Research Professor of Infectious Disease  
Deputy Director, Center for Environmental Health Science Professor of Biological Engineering  
Massachusetts Institute of Technology  
**Title: tRNA Reprogramming and a Second Genetic Code Control Translation of Survival Proteins During Cell Stress** |
| November 20, 2014 (Penn SRP*) 10---100 SCTR | Bruce Stanton, PhD  
Professor, Microbiology and Immunology  
Professor, Physiology and Neurobiology  
Andrew C. Vail Professor  
Director of he Lung Biology Center and the Center for Environmental Health Sciences  
**Title: Arsenic, the King of Poisons: A Global Public Health Crisis?** |
| December 4, 2014 (Penn SRP*) 10---100 SCTR | Joseph Testa, PhD  
Carol & Kenneth E. Weg Chair, Human Genetics Fox Chase Cancer Center  
**Title: TBA** |
