Background

The Center of Excellence in Environmental Toxicology (CEET) announces the following Mentored Scientist Transition pilot project opportunity. This award provides up to $50,000 per year in salary support to allow a senior postdoctoral researcher or clinical fellow establish independence in environmental health sciences.

Applications are due by **Monday, August 30, 2021**.

Applicants can request up to $50,000 per year for up to two years. The second year is contingent on peer-reviewed progress. This award is for salary support only to provide protected time to establish independence. The award must have a faculty mentor from the standing faculty. The senior postdoctoral researcher or clinical fellow must be mentored by a member of the standing faculty from any School at the University of Pennsylvania.

Applicants who submitted in a previous cycle and were unfunded and encouraged in their decision letter may submit a revised application.

Deadlines and Notifications

All applications will be sent out for peer-review to experts in the field, the CEET Executive Committee will then meet to select the awardees. Each application will be scored using the NIH scoring system (refer to ‘application review criteria’ section). Below are the application deadlines and timeline.

Eligibility Requirements

1. Any senior postdoctoral researcher or clinical fellow conducting mentored environmental health research at any University of Pennsylvania School may apply
2. They must be mentored by a member of the standing faculty.
3. Preference will be given to first-time applicants
4. Preference will be given to applicants that seek a R00/K99, K-award, ONES Award, or other career development award from the National Institute of Environmental Health Sciences (NIEHS)
5. Preference will be given for research projects that will utilize one or more of the CEET Facility Cores
   - Integrative Health Sciences Facility Core
   - Translational Biomarker Core
   - Exposure Biology Informatics Core
   - Community Engagement Core
6. The research being proposed cannot be funded by an external funding agency

Funding/Reporting Requirements

The anticipated period of funded project performance will be for 12 months following the project start date.

Funded applications must meet the following compliance guidelines.

1. All IRB and IACUC protocols must be in place before the funding can be awarded. A copy of the approved protocols should be submitted to the CEET before an award notice can be issued. For more information, see ‘IRB and IACUC’ in the Full Application Instructions section below.
2. Submit a progress report by the end of the first year - The progress report should follow the same format as that required for an NIH R01 RPPR-progress report. At that time the applicant may request an additional year of support with justification as to why an additional year of support is required. This additional year is contingent on satisfactory progress towards independence and must be accompanied by a mentor letter.
3. Present your findings at a CEET Pilot-Project Progress Seminar within 6 months of the end of the funding cycle
4. Acknowledge the parent P30 grant on all publications with the following language: “This publication was made possible by P30 ES013508 from the National Institute of Environmental Health Sciences, NIH. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of NIEHS, NIH.” It is the responsibility of the P.I to ensure that all papers resulting from the pilot project are submitted to PubMed Central and assigned a PMCID number

Full Application Instructions:

Applications must be submitted in a single PDF for internal review to paula.williams@pennmedicine.upenn.edu. Applications should include the following, in this order:

1. Application Form (see attached below)
2. Applicant Must Provide a Letter of Support from their Mentor /Chairperson with a plan towards independence.
3. Mentor must provide a copy of their Other Support page to verify that the project is not duplicative of their funded research
4. Applicant must provide a plan for a K-ward or career development award application.
5. New Format NIH Biosketch (limit 5 pages)
6. An abstract – a brief summary of the project (no more than 300 words)
7. Introduction-Revised Applications Only. These must include a one-page response to the previous critique; and then follow the instructions below.
8. Specific Aims (not more than 1 page) – concise goals of the proposed research and a summary of expected outcomes, including specific objectives

9. Research Strategy (not more than 6 pages)
   - **Significance** – describe the importance of the problem or critical barrier that the project addresses in Environmental Health Sciences, and explain how the project will improve scientific knowledge, technical capability, or clinical practice if the proposed aims are achieved
   - **Innovation** – describe how the proposed research seeks to shift research practice paradigms and how any methodologies or theoretical concepts that are being developed or used in the project may have an advantage over existing practices
   - **Approach** – describe the overall strategy, methodology, and analyses to be used to accomplish specific aims, including how data will be collected. Discuss potential problems, alternative strategies, and benchmarks of success
   - **Statistical Plan and Plan for Scientific Rigor & Reproducibility**

10. Project Timeline (1 page) – a proposed timeline of study performance should be included, identifying specific tasks and milestones in project progress for the 12-month period of performance

11. A brief outline of how the results from the pilot study will enable the submission of a subsequent NIEHS/NIH grant and a detailed plan for this subsequent grant submission (not more than 1 page)

12. Separate List of Current and Pending Grant Support using NIH formatting guidelines (NOTE: this should be a separate document in addition to the Biosketch)

13. References

14. Budget – an NIH-style budget table should be enclosed. The budget is restricted to salary only. No supplies, equipment or travel are allowable.

15. Budget Justification – a detailed explanation and justification of the salary funding request

16. Facility Core Usage and Correspondence – The CEET Facility Cores offer technical and research support to Center investigators and Pilot Project awardees. A wide range of capabilities, including biostatistical support, analytical sample preparation/processing, and biological sample measurements are available. Early discussion with Core Directors is strongly encouraged. For information on The CEET’s cores and their directors, please click here. CEET Facility Core Directors should be contacted to provide a letter of support as a part of this application. NOTE: If CEET Facility Cores are NOT proposed to support Pilot Project performance, a written justification must be provided as a part of the application.

**IRB and IACUC**

Applications using Vertebrate Animals or Human Subjects must also submit the corresponding sections required in an NIH grant (see below). Failure to do so will lead to the application being not considered for funding.

**Vertebrate Animals:**

1. Proposed Use of Animals
2. Justification for the Use of Animals
3. Veterinary Care
4. Procedures
5. Method of Euthanasia

**Protection of Human Subjects**

Please complete the Human Subjects Questionnaire including all attachments. (see attached below)

## Questionnaire

- **Are you a CEET Member?**
  - Yes
  - No

- **If CEET Member, please list your Thematic Area(s):**
  - [ ]

- **Are you an Early State Investigator?**
  - Yes
  - No

- **Do you plan to use a CEET Facility Core?**
  - Yes
  - No

- **If so, please indicate which Core(s) you plan to use?**
  - [ ] Integrative Health Sciences Facility Core (IHSFC)
  - [ ] Translational Biomarker Core
  - [ ] The Exposure Biology Informatics Core
  - [ ] Community Engagement Core

- **Have you met with a Core Director?**
  - Yes
  - No

- **If yes, please list of names of the individuals that you have met with:**
  - [ ]

- **Is a letter of support from a Core Director included with this packet?**
  - Yes
  - No

- **If you do not plan on using a CEET Facility Core, please provide a written justification here.**
  - [ ]

- **Are there animals included in this study?**
  - Yes
  - No

- **Are humans Subjects included in this study?**
  - Yes
  - No

## Application Check List

Please provide a ‘check’ or ‘x’ next to every item that is included in this application packet.

**SECTION 1 - CLINICAL TRIAL QUESTIONNAIRE:**

1. **Does this study involve human participants?**
   - Yes
   - No (If no, stop here)

2. **Are the participants prospectively assigned to an intervention?**
   - Yes
   - No

3. **Is the study a Delayed Onset study?**
   - Delayed onset means you can't fully define your plans for the human subjects study in your application. Typically, this means you need initial results from the first part of the grant before finalizing plans for the human subjects portion.
   - Yes
   - No

4. **Is this study exempt from federal regulations?**
   - Yes
   - No

   If “Yes” to question 4 above, Circle the appropriate exemption number:
   1 2 3 4 5 6 7 8

5. **Is the study designed to evaluate the effect of the intervention on the participants?**
   - Yes
   - No

6. **Is the effect that will be evaluated a health-related biomedical or behavioral outcome?**
   - Yes
   - No

**SECTION 2 – STUDY POPULATION CHARACTERISTICS**

1. **Conditions or Focus of the Study**
   Identify the name(s) of the disease(s) or condition(s) you are studying, or the focus of the study.
   - If available, use appropriate descriptors from NLM’s Medical Subject Headings (MeSH)

2. **Eligibility Criteria**

3. **Age Limits – if no limit, enter “N/A”**

4. **Inclusion of Women, Minorities, and Children**
   - Attach as additional document
5. **Recruitment and Retention Plan** – not required if Exempt #4  
   Attach as additional document

6. **Recruitment Status (Please Select One):**  
   - Not yet recruiting  
   - Recruiting  
   - Enrolling by invitation  
   - Active  
   - Not Recruiting  
   - Completed  
   - Suspended  
   - Terminated (Halted prematurely)  
   - Withdrawn (No Participants Enrolled)  

7. **Study Timeline**  
   Attach as additional document

8. **Enrollment of First Subject** – Enter the date and if it is Anticipated or Actual

9. **Inclusion Enrollment Report** – Use template to provide information for manual entry into Penn eRA  
   See attached form

**SECTION 3 – PROTECTION AND MONITORING PLANS (ATTACH AS ONE SINGLE DOCUMENT)**

1. **Protection of Human Subjects**  
   Attach as additional document

2. **Risks to Human Subjects**  
   a. Human Subjects Involvement, Characteristics, and Design  
   b. Study Procedures, Materials, and Potential Risks  
   Attach as additional document

3. **Adequacy of Protection Against Risks**  
   a. Informed Consent and Assent  
   b. Protections Against Risk  
   c. Vulnerable Subjects, if relevant to your study  
   Attach as additional document

4. **Potential Benefits of the Proposed Research to Research Participants and Others**  
   Attach as additional document

5. **Importance of the Knowledge to be Gained**  
   Attach as additional document

6. **Is this multi-site?**  
   - Yes  
   - No  
   If yes to the question above, describe the single IRB plan  
   Attach as additional document

7. **Data and Safety Monitoring Plan** – required for Clinical Trial, optional for all other Human Subjects research  
   Attach as additional document

8. **Will a Data and Safety Monitoring Board be appointed for this study?** – required for Clinical Trial, optional for all other Human Subjects research  
   - Yes  
   - No  

9. **Overall structure of the study team** – required for Clinical Trial, optional for all other Human Subjects research  
   Attach as additional document
APPLICATION REVIEW CRITERIA:

Applications will be sent out for peer-review to experts in the field, the CEET Executive Committee will then meet to select the awardees.

The major review criteria are and will be scored using the NIH system

1. Significance
2. Approach
3. Innovation
4. Investigator
5. Resources & Environment
6. Budget/Budget Justification
7. Likelihood that the project will lead to NIEHS/NIH independent grant support

Funding will begin **Friday, October 1, 2021** and a Notification of award will be sent to the P.I. and their B.A. **by Friday, September 24, 2021**.

Each application will receive a decision letter and a copy of the critique and scores. If an applicant is encouraged to reapply they must provide a response to the critique (no more than one page).
